

Camilla Fleetcroft

Interim Group Manager - Devices Regulatory Group, MHRA

After initially training as a doctor, Dr Camilla Fleetcroft joined the MHRA in 2013 as a clinical adviser in the Devices Division. In 2018, she moved to head of clinical investigations and clinical evaluation supporting much of the work to implement the EU MDR and IVDR.

In January 2020 she took up the role of Group Manager for the Devices Regulatory Group. The Devices Regulatory Group is leading the Devices work on the implementation of the Medicines and Medical Devices Act (2021) and are leading the Division's work on EU exit and the development of future regulatory strategy.
